

TRANSMILLE

ADVANCED METROLOGY SYSTEMS

Every week customers ask us: "We need to replace a Fluke 55xx calibrator. What is your closest product?"

The truth is that it depends on what you're looking for. Do you need the closest ppm / accuracy? The product that is nearest in price? Something that can give you the most similar operations?

The graphic is a simplistic overview of how multi product calibrators stack up.

Transmille offer the most accurate and advanced multi product calibrator available! We also offer the lowest cost calibrator available.

More importantly if you are like a lot of our customers, who may not need the absolute best and do not want an entry level product, we have more options right in the middle to satisfy your unique requirements.

Each of our Transmille calibrators have a number of possible functions. Each fills a slightly different set of needs. If you are looking for a calibrator, give us a call at 1 (802) 846-7582, or email sales@transmillecalibration.com and speak with our knowledgeable sales staff. They can help you find the right product for your laboratory needs.
